

She Just Wants To Dance

Gary "U.S." Bonds

When the music starts to play
She slides out on the floor
Dancing without a partner
Swaying on the two and four

There's a rhythm in her footsteps
And a flower in her hair
A smile on her face 'cause she's in a place
Where you know she don't have a care

She ain't looking for no lover
She ain't looking for romance

She just wants to dance
(Just, she just wants to dance)
She just wants to dance
(Just, she just wants to dance)

Yeah, she just wants to dance
(Just, she just wants to dance)
Oh, she just wants to dance
(Just, she just wants to dance)

Well, she's moving kinda lazy
(Moving kinda lazy)
And it's all been up to me
(All been up to you)
This little girl ain't crazy
(No)
She's as wild as she is free
(Oh, yeah)

She can feel it in her fingers
(Feel it in her fingers)
And it moves on down her spine
(Moving on down her spine)
And when it hits her hips, she parts her lips
And you know she's feeling fine
(Oh, yeah)

She ain't looking for no lover
(She ain't looking)
She ain't looking for romance
(No romance)

She wants to dance
(Just, she just wants to dance)
She just wants to dance
(Just, she just wants to dance)

Yeah, she just wants to dance
(Just, she just wants to dance)
Ow, she just wants to dance
(Just, she just wants to dance)
Oh, get it girl

She ain't looking for no lover

(She ain't looking)
She ain't looking for romance
(No romance)

She wants to dance
(Just, she just wants to dance)
She just wants to dance
(Just, she just wants to dance)

She wants to dance
(Just, she just wants to dance)
The girl wants to dance
(Just, she just wants to dance)

C'mon girl, get it
(Just, she just wants to dance)
Y'all, move it over
Move it on over a little bit
(Just, she just wants to dance)

Let the little girl dance
(Just, she just wants to dance)
She just wants to dance
(Just, she just wants to dance)

Did you hear me?
Let the little girl dance
(Let the little girl dance)
(Just, she just wants to dance)
Let the little girl dance
(Let the little girl dance)
(Just, she just wants to dance)
