

Can't Find the Judge

Gary Wright

I feel so helpless and did nothing wrong
They sent my woman off to a jail
She's guilty of no crime
'Cept for loving me
And the Justices' they didn't have no bail

I can't find the judge
I can't find no one to help me
No no no
I can't find the judge
He put my woman away
I can't find him nowhere
No no no no no

'Til I find the judge
Can't find no one to help me
No no
Somebody help me
I can't find the judge

It's such a crime to see her that way
She thought I cheated with another woman
But that woman was a friend
Now she's lying dead
Is there any justice in misunderstanding

I can't find the judge
I can't find no one to help me
No no no

I can't find the judge
He put my woman away
I can't find him nowhere
No no no no no

He took my woman away
'Til I find that man
Somebody help me
Took my woman away
No no
'Til I find the judge
Can't find no one to help me
No no no no

Somebody help me
He took my woman away
I can't find the judge
No no
Somebody help me find that man
'Til I find the judge
No no no
Took my woman away
Somebody help me
