

Empty Inside

Gary Wright

I was so empty inside
I was so empty inside
I was so empty inside
'Til you came into my life

I could not find a way to get behind it all
I was afraid that I would stumble and I'd fall
Then you came like from distant space and time
And your memory only makes me realize

I was so empty inside
I was so empty inside
I was so empty inside
'Til you came into my life

I could not run, I only had the strength to crawl
And this place was like a dark and empty hall

You have saved me from a desperate state of mind
And where I am now, I can see so clear behind

I was so empty inside
I was so empty inside
I was so empty inside
'Til you came into my life

You're the starlight of some distant space and time
And the passing time just makes me realize

I was so empty inside
I was so empty inside
I was so empty inside
'Til you came into my life

Now I can't hide, no, no, no, I can't hide...
