

Fascinating Things

Gary Wright

I believe a change has gotta come
They'll be fascinating things
I believe a change has gotta come
Get ready for the new things

Things that move ya, thrill ya, soothe ya
Things that cool ya, chill ya, fool ya
Things that groove ya, entertain ya
So you can't stay awake asleep
Many fascinating things

I believe a change has gotta come
They'll be fascinating things
I can see we're gonna have some fun
Getting into all the new things

Things that cool ya, rule ya, fool ya
Things that help ya through the day
Things that turn ya from a bad state of mind
And feeling real fine
They'll be fascinating things

Things that move ya, thrill ya, soothe ya
Things that cool ya, chill ya, fool ya
Things around ya just may suddenly change into better things
They'll be fascinating things

I believe a change has gotta come
Get ready for the new things
I believe a change has gotta come
They'll be fascinating things
I believe a change has gotta come
They'll be fascinating things
