I Know

Gary Wright

I know, that you've been running 'round on me
I know, that you've been playing games with me
They say, you're telling people that we're through
One day, you'll get back on the wrong ya do

I know, you've been trying to hold me down
While you do your running 'round
You think you can hypnotize
You think I believe your lies

But I know, nothing you do or say is true
I know, you get back on the wrong you do
I know

May be you're blind to what's right
You're afraid to see the light
Can't you see what you're doing is wrong
It's a crime and you just carry on

Cause I know, nothing you do or say is true
I know, you'll get back on the wrong you do
I know
