

Love To Survive

Gary Wright

In the life I have seen more times
How indifferent people can be
With success they somehow conclude
That they're free from every need

But they see as time goes by
We need love to survive
We need love to survive

I have seen it a hundred times
Having had what money can bring
Sacrificing your precious years
You think you've found everything

But you'll see as time goes by
We need love to survive
We need love to survive
What a simple need

If we could only realize
All the truth and simplicity
Getting hung up on how to win
Is so far from reality

I have seen in my own time
We need love to survive
We need love to survive
Love is all we need
