

No One Does It Better

Gary Wright

Every moment, every day and hour that I spend with you
Is so fine
Makes me realize nothin' can move me like you do
And that's why I'm sayin'

When I see you, somethin' comes alive inside me
Lights me up like a fire inside
You take me to a place where there's no turnin' back
What I'm feelin' now I just can't hide

When it comes to you, when it comes to me
When it comes to lovin' each other like we do
No one does it better
When it comes to us and the way we trust each other
When it comes to holdin' each other like we do
No one does it better

I can't believe it but life is gettin' better for me every day
I'm flyin' high
the joy that we have no one could ever take away
And we both agree

Love grows when you feed it every day
Got to keep givin' all the time
You and I sailin' far down the ocean of life
There's to turnin' back no, no, no

When it comes to you, when it comes to me
When it comes to lovin' each other like we do
No one does it better
When it comes to us and the way we trust each other
When it comes to holdin' each other like we do
No one does it better

When I see you, somethin' comes alive inside me
Lights me up like a fire inside
You take me to a place where there's no turnin' back
What I'm feelin' now I just can't hide

When it comes to you, when it comes to me

Love grows when you feed it every day
Got to keep givin' all the time
You and I sailin' far down the ocean of life
There's to turnin' back no, no, no

When it comes to you, when it comes to me
When it comes to lovin' each other like we do
No one does it better
When it comes to us and the way that we trust each other
When it comes to holdin' each other like we do
No one does it better

When it comes to you, when it comes to me
Lovin' each other like we do
No one does it better
When it comes to us and the way that we trust each other

Holdin' each other like we do
No-no-no one does it better

When it comes to you, when it comes to me
Lovin' each other like we do
No one does it better
When it comes to us and the way that we love each other
Holdin' each other like we do
No-no-no one

When it comes to you, when it comes to
Lovin' each other like we do
No one does it better

When it comes to lovin' each other like we do
