

Stand For Our Rights

Gary Wright

The world we live in today
Seems to be heading a very bad way
No one knows right from wrong
No one is sure just where they belong

I think the time is sure right
To get together our friends and unite
Spirit of humanity
Give us the power to learn to be free

We got to stand for our rights
Fight for the freedom to live our own lives
You ask me where I belong
Sit next to me and I'll sing you this song

Now is the time to live up to your ends
Stick with you family you know you can defend
Speak out on what you think is right or wrong
Don't be afraid to show where you belong

I belong to you and me
To all of us who want to be free
Belong to no special race
You are the mirror of my own face

We got to stand for our rights
Fight for the freedom to live our own lives
You ask me where I belong
Sit next to me and I'll sing you this song

We got to stand for our rights
Fight for the freedom to live our own lives
You ask me where I belong
Sit next to me and I'll sing you this song

We got to stand for our rights
Fight for the freedom to live our own lives
You ask me where I belong
Sit next to me and I'll sing you this song

We got to stand for our rights
Fight for the freedom to live our own lives
You ask me where I belong
Sit next to me and I'll sing you this song
