

# The Light of Smiles

Gary Wright

I'm not trying to fool ya  
I'm just trying to explain  
How my love for you is more than mystifying  
Ooh baby, my love is blind

In the light of smiles from your face  
I feel a space where love is inside  
The light of smiles from your face  
Melts my mind away

Once I thought I loved ya  
While was really was trying to find  
A way of touching my own reality  
Ooh baby, I'm still trying

In the light of smiles from your face  
I feel a space where love is inside  
The light of smiles from your face

Melts my mind away

Hey, hey, hey...

Let me learn to know ya  
Can you show me a sign tonight?  
I do believe I need to be near you now  
Ooh baby, the love shines

In the light of smiles from your face  
I feel a space where love is inside  
The light of smiles from your face  
Melts my mind away

The light of smiles from your face  
Gives me the space where love is inside  
The light of smiles from your face  
Melts my mind away
