

You Make Me Feel Better

Gary Wright

The sky pours rain on the high dry mountains
Feeding the streams waking life in everything
And I try night and day feeding my mind
With the fire of pure love I know only you can bring
then I feel alright

You make me feel better
When you're near
You make me feel better
When you're here
Your love deeply heals me...Oh yeah
Whenever you're near me

Sunlight shines through the bright and the dark hours
Reminding me always keep your dreams alive
Then I hear your voice whispering inside me
Keep on remembering that our love will survive
Then I feel alright

You make me feel better
When you're near
You make me feel better
When you're here
Your love deeply heals me... Oh yeah
Whenever you're near me... Yeah yeah

When my life feels unpredictable sometimes
I just close my eyes and I make believe you're here
Or when I lose hope when I'm scared or alone
I remember your words that we're stronger than our fears
Then I feel alright

You make me feel better
When you're near
You make me feel better
When you're here
Your love deeply heals me... Oh yeah
Whenever you're near me... Yeah yeah

You make me feel better
When you're near
You make me feel better
When you're here
Your love deeply heals me... Oh yeah
Whenever you're near me... Yeah yeah

You make me feel better
Whenever you're near me... Yeah, yeah
You make me feel better
Whenever you're near me... Yeah, yeah
