When the fear takes you down
When the doubt takes you under
When you sink like a stone
And you can't breathe
When the tears take control
When the demons take over
Won't be in this alone
You got me

Oooooooo yeah Oooooooo You got me

When the walls all cave in When the nights all get colder When you hang by a thread of sanity
Rest your head on my heart
Hang your pain on my shoulders
Make your way to my arms
Cause you got me

Oooooooo yeah Oooooooo You got me

I'll be the one to lead you home
I'll be the one to keep you warm
I'll take you in out of the storm
When you can't stand I'll stand up for you

When the fear takes you down When the doubt takes you under You're not in this alone You got me

Oooooooo yeah Oooooooo You got me

I'll be the one to lead you home
I'll be the one to keep you warm
I'll take you in out of the storm
When you can't stand I'll stand up for you
