

## Women Come Women Go

Gazebo

Hey ladies of my life  
I've been waiting here so long  
Hey ladies it didn't last  
Cause you thought you were so strong

Women come and women go  
They take my soul  
And they think they got me  
Women come and women go  
And I don't know why  
Never in or out from the front door

Hey ladies of my life  
I wonder where you are right now  
Hey ladies from my past  
Do you remember all your vows  
Cause you women came and you women went  
And you left a trace  
In my shattered clay heart

You women laughed and you women cried  
And your voices still  
Ripple endless in my blood

Women come and women go  
They take your soul  
And they think they got you  
Women come and women go I don't know why

Women come and women go  
They take your soul  
And they think they got you  
They come and they go  
Never from the front door
