

Over & Over

Gemma Hayes

Over and over
We tried to make it
We played all the right games

We took too much for granted
Please don't stray, so far from me
Please don't stray, so far from me
Again

Over and over
We made too many plans
When it came to reality

We forgot how to land
Please don't stray, so far from me
Please don't stray, so far from me
Again

Over and over
We tried to make it
We played all the right games

We took too much for granted
Please don't stray, so far from me
Please don't stray, so far from me yeah
Please don't stray, so far from me
Please don't stray so far from me
Again

So far from me
So far from me
So far from me
So far from me
You're so far from me
You're so far from me
You're so far from me
