

# Something In My Way

Gemma Hayes

The blacker my heart  
The deeper i feel  
The cheaper the real  
The closer you are to me

Afraid i'll forget you  
Afraid i might try to  
When nothing moves quite  
Like you to me

But there's something in my way  
There's something in my way  
There's something in my way  
There's something in my way

I see the punch come  
But i just don't feel it  
I want to believe but i  
Just dont believe it

Afraid i might hate you  
Afraid i might try to  
There's so much that i  
Should say to you now

But there's something in my way  
There's something in my way  
There's something in my way  
There's something in my way

The blacker my heart  
The deeper i feel  
The cheaper the real  
The closer you are to me

Afraid i'll forget you  
Afraid i might try to  
When there's so much that i  
Should say to you now

But there's something in my way  
There's something in my way  
There's something in my way  
There's something in my way

I see the punch  
I just don't feel it  
Something in my way

I want to believe  
I just dont believe it  
Something in my way
