

Give love

Gen Rosso

You may happen to be in a place
Where you feel like you're closed
In a cage all you see are but empty faces
Hopes are gone, smiles have faded.
But you've got a great dream deep inside
(got a great dream inside)
You wanna world vast and wide
Where teh people don't hide with the night
(where people don't hide, don't hide with the night)
You need light (you need)
To live better. (light, light)
There's no time to be wasted oh...
Better get started!

Love lives in your heart
This is the secret
Look all around you
follow your dream.

Give love every single moment
You'll find your world new
Fight fight go against the current
You find yourself true. (bis)

With love no mountain's too high to be climbed
(no mountain's too high)
We can ride on our rainbows
And leave our past far behind.
(on our rainbows we ride, flying high in the sky)
Love gives light, (gives light)
Love is the answer, (light, light)
There's no time to be wasted oh...
Better get started!

Love lives...

Give love...(bis)
