

## Like a Movie

Gen Rosso

Just like a movie  
Everything I see and hear  
That moves all around me  
Is moving all the other way  
Look at all the things  
That would come together for you  
Like milk and honey and you...  
You and me

Just like a movie  
Where the whole wide world  
Before my eyes is living in rewind  
Are you leaving to stay  
Look at all the things  
That would come together for you  
Like bread and butter and you...  
You and me

Just like a film that's rolling backwards  
The whole wide world back together again 2x

And we'll see now a change in the weather  
Broken hearts come together... yeah, yeah, yeah... and we'll see  
now  
And we'll see now sisters and brothers  
Helping out one another... yeah, yeah, yeah... and we'll see now  
And we'll see now an opening door  
And an end to the war,  
people joining hands now everywhere

Just like a movie  
Everything I see and hear...

Just like a film that's rolling backwards  
The whole wide world back together again 2x

And we'll see now...

Can't you see we're made to live in harmony  
Can't you see the world will live in unity

Just like a movie  
Where the whole wide world...
