

Mother earth

Gen Rosso

Little wings
sail on heaven's seas
'neath the shore
waves of promise boom
you see they listen to what
mother has to say.

As a child
life moves in a dream
rest your hands
let the bird go free
why don't you listen
to what mother has to say
oh, why have people
broken the peace with you
oh, mother earth?

Mother earth bless your children
mother earth forgive us once more
mother earth give us a chance
mother earth praise the most high.

Teach my eyes
what makes rivers flow
let me try
on my knees I plead
oh, give me strength to face
the shame of all my deeds.

Fill my heart
with a breath of love
wash away
all my hidden faults
oh, will you answer me
with one last chance to see
the day will dawn when people
open up their lives
oh, let us sing.

Mother earth bless your children
