

Don't you wish that you could be secure
Don't you wish that you could know for sure
But don't you know that not knowing is half of the fun

Take your son up to the mountain top
Go ahead now give me everything you got
Don't you know that not knowing will rise up the sun

When I trust in you, you give me everything
When I trust in you, you give it to me all
When I trust in you, you take away my weaknesses
Because I am with you my friend secure

You're hang gliding off the edge of a cliff
Your body's shaking and your legs are stiff
Don't you know where you're going
Life's just begun

Daddy, Daddy take this cup from me
You know it's not the one I want to see
But don't you know I'll be singing your will be done

When I trust...

Be secure (4x)

Stars and tears are falling all around
carry my burden carry this treasure I found
don't you know I will find you a place in the sun

Don't you wish that you could be secure
