

## Some Dreams Come True

Gen Rosso

We all have a dream  
That all may be one  
Like rays to the sun...to the sun! BOOM  
It doesn't matter  
The color of your skin  
We're the new generation...generation! BOOM  
Restore  
Open the door....Turn the key!  
Let love set you free!  
Let love set you free, set you free!

Fast times..... been there!  
Slow times..... been there!  
Hard times..... been there!  
It's a revolution..... be there!

Some dreams come true  
With a love burning deep inside you  
Some dreams come true  
It's courage that you'll never dare to hide  
Some dreams come true  
With the strength made for moving a mountain  
Some dreams come true  
Believe us that the world is gonna change

It all starts with one  
Then there comes two  
A city of souls.... like me and you...me and you! BOOM  
Now we're living ....now we're free  
We're like a wave.....We're like the sea! BOOM  
United we stand... divided we fall  
Open your heart...there's room for us all!

Fast times..... been there!  
Slow times..... been there!  
Hard times..... been there!  
It's a revolution..... be there!

Some dreams come true...
