

Dirty Mister Dirty

Generational

Like Jeffrey said, the sun is shining down
There ain't a cloud around
You called your friends, you said they're coming out
Where are they now?

Maybe then I'll fall in love with you

The rest won't take this riot lying down
How they do make that sound
You always said your friends can teach us how
Oh can they now?

Maybe then I'll fall in love with you
