

Afterlife

Genuflect

Let it rain 2x
Let the water come down
And wash away the blood
So many lives
I have never understood
What is it about
The way that people are
Always want to take it just a little bit too far
And now you're on your own
Got nothing left to lose
Does anybody out there
Know the truth

Now open
Far and wide
This is our only time
We are waiting for afterlife

Let it rain 2x
Let the water come down
And wash away the blood
All of my live
I've been waiting for god
What is it about
The way that people die
Why is it so hard to say goodbye

Now open
Far and wide
This is our only time
We are waiting for afterlife

We are waiting for afterlife

And if I don't believe 3x
No I don't believe 4x
In you

Now open
Far and wide
This is our only time
We are waiting for afterlife
