Teardrops

George Ducas

Teardrops on my window just like raindrops fallin' down from my eyes

Teardrops on my pillow they're everywhere i go since you said g oodbye

Everyday i make my way across this lonely room
I pull back the shades and all i see are blue skies
Without you here it's stormy weather and even the sun can make
me cry

Teardrops on my window...

Every night i try to fight back your mem'ry try as i might ever ytime i lose

When i lay down well that's when heartaches come around i reali ze it's just no use

Teardrops on my window...

They're everywhere i go since you said goodbye
