

Wonderful World Of My Dreams

George Hamilton IV

Maybe it's foolish pretending a fool's paradise it may seem
But each night I continue to hold in a wonderful world of my dreams
When my broken heart get so lonely and starts coming apart at the scene

Well I just walk over and mend it in a wonderful world of my dreams
Moments gone forever I've relived them there it seem
And just like old times you still love me in a wonderful world of my dreams

Although you say that it's over you've sent back my letters and rings
Each night I continue to hold you in a wonderful world of my dreams
Moments gone forever
