

Life

George

It's another life
I can't believe the things that I see
Seems like paradise
I walk behind
You looking at me

My creation
It's another life
This sensation
Is walking on hot ice

It's another life
But you don't have to be what they say
It's a different kind
Of love running through you inside

My creation
It's another life
This sensation
Is walking on hot ice

In your life
Everything you feel in life
Never try to turn your life
Into something that you'll never sleep at night
You'll run into alone
Hot ice...

It's another night
But I can sleepwalking into my mind
Just another night
But the time don't go anywhere

My creation
It's another life
This sensation
Walking on hot ice

In your life
Everything you feel in life
Never try to turn your life
Into something that you'll never sleep at night
You'll run into alone
Hot ice...
