

If You Live

Georgie Fame

If you live your time will come
I say if you live your time will come
So child dont you mess with that cotton sack
It will scratch your knees and bend your back
And if you live your time will come

If you live your day will come
If you live your day will come
So child don't you mess with those pots and pans
They gonna soon enough ruin your pretty hands
And if you live your time will come

If you live a day will come
If you live a day will come
When the sun will shine
And the crops will grow
And you think that you're not gonna worry no more
But if you live, your time will come
