

No Way Out

Giant

Late, late last night, I saw a face that touched my soul
I knew that the time was right, so I moved on in and said hello
First we started talking, then we started walking
She said: "I live 'long the next bent, have you met my boyfriend?
He'll be waiting up for you"

And there's no way out, girl, I've got my back against the wall
Oh there's no way out, I don't get no second chance at all
And there's no way out

I said: "hey, what's all this? I don't get off on playing games
"

She smiled and she blew me a kiss, I saw my night go up in flames
He turned on the corner, night was getting warmer
Oh no, then I saw him coming, so I started running
This is like some crazy dream

And there's no way out, girl, I've got my back against the wall
Oh there's no way out, I don't get no second chance at all
And there's no way out

Late, late last night, I saw a face that broke my heart
I knew the time was right, oh baby, but I turned around and played it smart
No way out, girl, I've got my back against the wall
Oh there's no way out, I don't get no second chance at all
And there's no way out, girl, I've got my back against the wall
Oh there's no way out, I don't get no second chance at all
And there's no way out
Yes there's no way out
