

SLEEP

Gideon

Why's it gotta be like that
Think you know someone
Reach out to get pushed back
Time that I check myself and realize
No more mister nice guy
Cause I done let this slide
One too many times
And my mama ain't raise no bitch
Think I've had enough of your shit, boy
I'm done

(I'm done)

Walked away
Bit my tongue
Now it's building up inside

Say good night
Too late to
Make shit right
Sleep
You ain't bout to turn your back to me
Look into my eyes one time
Say good night
Sleep

Why did you change
Why ain't your music the same
Do you not feel the same way
Bitch, let me put it like this
Find someone else's ass to kiss
Oops, I mean
Maybe you could pray for me
A devil without a cause
Let me be
I've had enough

Walked away
Bit my tongue
Now it's building up inside

Say good night
Too late to
Make shit right
Sleep
You ain't bout to turn your back to me
Look into my eyes one time
Say good night
Sleep

This is the last time it'll cross your mind
To cross me
Think twice
Yeah you're walkin' on thin ice
Tell me what's it gonna be
Cross me, motherfucker

Kiss my fist good night
Kiss your ass goodbye

Sleep
(I'm done)

Walked away
Bit my tongue
Now it's building up inside

Say good night
Too late to
Make shit right
Sleep
You ain't bout to turn your back to me
Look into my eyes one time and
Say good night
Sleep
