

TAKE ME

Gideon

You've got me by the throat
My sweetest friend
Hold my hand
Hold my head underwater
So I can feel you again

You've got me
I'm yours for the taking
The metal's cold but I love the sting
Lock me up, throw away my key
Go

Oh damn
Speak to me

What's one more sacrifice
Life's just a paradox
What would you do for a paradise
Give me the world

I'll give you everything I got left
Follow you down, give you my last breath
Take me far away
You take me far away
I'll never be the same

Nothing
I feel nothing
Just a ghost of what used to be
Cut me deep so I can feel you move
Move me

I'll give you everything I got left
Follow you down give you my last breath
Take me far away
You take me far away
Ay, yeah
Take me far away
You take me far away
I'll never be the same

Hold my hand
Hold my head under water
Need to feel you again
