

# The Limit

Gideon

I feel like I've been here before  
Maybe in a pipe dream when I was 16  
Sittin' in class watchin' the minute hand pass  
And my mind only on one thing  
If I could go, If I could see  
If I could make my dreams a reality  
I want to touch the song I hear  
That's been ringing inside of me for years  
And you can watch from the sidelines  
No limits running through my mind  
I found the pulse and this heart's alive  
No limits running through my mind  
So clear the clouds I'm gonna chase  
Chase the sky  
I feel like I've been here before  
Maybe in a pipe dream now it's the real thing  
I'm living too fast to sit and watch the time pass  
Sun shinin' drip dryin' in Sydney  
I'll watch the sun go down in a foreign town  
Head still in the clouds with both feet on the ground  
Forever living loud  
Can you hear me now?  
If sky's the limit I'm gonna tear it down  
We're gonna tear it down!  
And you can watch from the sidelines  
No limits running through my mind  
I found the pulse and this heart's alive  
No limits running through my mind  
So clear the clouds I'm gonna chase  
Chase the sky  
If sky's the limit we're gonna tear it down  
Tear it down!
