

## For the Record

Gilbert O'Sullivan

So many people look at me  
I don't know why they do  
Maybe it's just because I am  
What it is I want to  
What it is I want to

So many lovers in this world  
It's with their own excuse  
I run the risk of falling out  
When there's so much to lose

When wild and debating the rights and the wrongs  
All [?] country has grown  
A force for the good is no good if you have no home

So many offers coming in  
Hard to know where to turn  
Go for the one that stands with us  
Profits are those we learn  
Never a penny earned

And while you have nothing to do  
With the way you now see your country being run  
The party that worries the least is the one that won

So many measures put in place  
In places I believe  
Most if not all [?] help  
Others though we don't need  
And so for the record let it be known  
What for the record it means
