

Six Billion People

Paul Gilbert

There are six billion people on this planet
But I'll only ever fall in love with two
One is a black and white photo of Grace Kelly
And the other you might like to know is you

There are six billion people on this planet
And you'd think in all this time I'd find some more
I've looked in both the city and the country
But you're the only one that my heart's beating for
