

## Head To Head

Gin Wigmore

Oh, take my bones to build yourself a castle to roam  
And oh, take my eyes to see inside the heaven I stole  
But hell, it's cold out and I can't sleep tonight  
But hell, it's cold out, I need you by my side

Going head to head  
Is that how we're gonna love?  
Going head to head  
Is that how we're gonna love?  
No one can touch me like you do  
Love it but only from you  
Nobody hurts me like you do  
Love it but only from you

Oh, let me in, your doors are made for thieves like me  
And oh, my skin goes flush when I think of your touch  
But hell, it's cold out and I can't sleep tonight  
But hell, it's cold out, I need you by my side

Going head to head  
Is that how we're gonna love?  
Going head to head  
Is that how we're gonna love?  
No one can touch me like you do  
Love it but only from you  
Nobody hurts me like you do  
Love it but only from you

Break my heart like I know you want to, like I know you want to  
With your hands, hold my ruby red lips like a punch and a kiss  
Break my heart, break my heart

Going head to head  
Is that how we're gonna love?  
Going head to head  
Is that how we're gonna love?  
No one can touch me like you do  
Love it but only from you  
Nobody hurts me like you do  
Love it but only from you  
No one can touch me like you do  
Love it but only from you  
Nobody hurts me like you do  
Love it but only from you
