

# Night Drive

Gino Vannelli

I wanna runaway  
Tear up the road ahead  
Cry like a bird of night  
With my wings outspread  
High time I get gone  
Get these chains off of me  
Only thing I gotta do  
Is turn the silver key

And drive all night  
Never look back  
Vanish out of sight  
Slip through a crack  
Run till the road meets the sky  
And my taillights disappear  
I'm gonna drive all night  
I'm outta here

She said she don't love me no more  
That I ain't quite the man  
She was hopin' for  
Gotta keep rollin'  
Else I might lose my mind  
Maybe catch up with happiness  
Somewhere down the line

Drive all night  
Never look back  
Vanish out of sight  
Slip through a crack  
Run till the road meets the sky  
And my taillights disappear  
I'm gonna drive all night

I'm gonna drive like the devil  
Gonna ride like the wind  
Put the pedal to the metal  
Until I drive that woman out from under my skin

I'm wanna drive  
I'm wanna drive  
You know I'm wanna drive

I'm gonna vanish out of sight  
And slip through a crack  
Run till the road meets the sky  
And my taillights disappear  
I'm wanna drive all night  
I'm outta here

I'm outta here  
Yeah I'm wanna drive  
And I'm wanna drive  
Oh yeah  
I'm wanna drive  
I'm wanna drive  
All night
