

People Gotta Move

Gino Vannelli

People come on and do it right
Shake your behinds like dynamite
Chuck all your worries and toss your thighs
To be tame is a pain when you realize

You gotta move...
People gotta move...

Shake all your brains and pump your heart
Show all the world what you are
You come on for right, you come on for wrong, you come on for zeal
'Cause the tones of your bones makes you feel

You gotta groove...
People gotta move...
