Hey woman walking on a wire
I know your back is to the wall
What lies in water lies in fire
It's all in how you take the fall

Why don't you stay with me Oh, lay with me Don't turn the lights on me Tonight on me

(Stay with me)

The streets are cold in New York City Why don't we break the ice Now just like a fool I'll be feeling guilty So just this once I won't think twice

Why don't you stay with me
Oh, lay with me
The only crime I see
Is killing time with me

(Stay with me)

And oh, what a feeling When I'm with you You play with fire What am I supposed to do

Hey woman life's too short to straddle You're either right or wrong So come on gamble Just don't keep me hanging on

Why don't you stay with me
Oh lay with me
The only crime I see
Is killing time with me
