

# The Other Man

Gino Vannelli

An urgent call in the dead of night  
A voice that whispers "Now"  
A voice that trembles like a winter leaf  
Before it hits the ground

She leaves a crack in the bedroom door  
To slip the wire through  
Her husband sleeping in a empty bed  
No witness to the truth

It's a one way conversation  
I try to tell her no  
But it's a hopeless situation  
I just can't let her go

And here she is another desperate night  
In the arms of the other man  
Another day in a double life  
Every moment that she holds me tight  
I know just where I stand  
As I am the other man

She leaves my room like a criminal  
To beat the morning light  
Rehearsing ever little alibi  
To get it water tight

There's a note on the dresser top  
It's the same old classic line  
She says she's leaving him  
It's just a question of time

It's a no win situation  
'Cause I just can't let her go  
And here she is another desperate night  
In the arms of the other man

Another day in a double life  
Every moment that she holds me tight  
I know just where I stand  
As I am the other man  
As I am the other man  
As I am the other man  
As I am the other man
