

Valleys of Valhalla

Gino Vannelli

Take me to heaven
On this cold Norwegian night
My skin is unleaven
Untouched and so unsanctified
Feel the flame that burns my pagan soul

This sacred ingression
Is a sooth-said rhapsody
This carnal connection
Ignites my flesh with fantasy

A holocaust of love is rising now
Feel the fire
You inspire
Mesmerizer
Take me to the valleys of Valhalla

A holocaust of love is rising now
Feel the fire
You inspire
Mesmerizer
Take me to the valleys of Valhalla
