

# Open the Door

Ginuwine

Something about the way you kiss me  
Dang girl your lips are so soft  
I can't control it when your with me  
And I really want you just to take it off

I can't control myself  
I think about it even when I'm by myself  
All I want is you open the door

You can be my lover you can be my friend  
Just open up girl and let me in  
Open the door let me be your baby  
I want to be your man  
Here I come girl oh let me in  
Open the door ay ay ay yeah  
Open the door ay ay ay yeah  
Open the door ay ay ay yeah open the door

Girl your body is the greatest  
I wanna hold on and never let go  
Oh can't you feel the anticipation  
I wanna lock you inside your door

I can't control myself  
I think about it even when I'm by myself  
All I want is you open the door

I want you  
I think of how it feels when I'm with you  
Unlocking your doors to get in  
You knock knock let me in  
Girl I'm coming in  
Open your door open the door for me

[Chorus]
