

Say When

Ginuwine

We've been waiting for a while
And you feel we're ready now (and I want it just as bad as you)
Girl I can't help but to smile
Can't believe it's going down (cause this is something you don't have to do)
I promise I'll be gentle
Just hold on tight and pull me in slow
If you're ready then I'm ready tell me right now
When you throw it at me bet I won't strike out
I'ma hit it out the park and put your lights out

Step 1

Take off your clothes you won't be needing those

Step 2

Girl just relax and lay down on your back

I know your heart is racing from the anticipation

But I'ma put it down

All you gotta do is let me set the mood and say when, say when
Just follow my lead and leave the rest to me and say when, say when (2x)

If you're ready to explore

Flick the lights and close the door (and while I buckle up you on the ride)

I'ma take you on a tour

From the bed down to the floor (so sit back and just enjoy the night)

I guarantee you'll like it

The thought of it gets me excited

If you're ready then I'm ready tell me right now

When you throw it at me bet I won't strike out

I'ma hit it out the park and put your lights out

oooh, ahhh, ohhh

i'ma make you say (4x)

[Chorus]
