

# My Emptiness

Girls Under Glass

My Emptiness

My body is shattered my mind is confused

My head feels empty my heart is abused

I cannot explain what happened to me

What really happened nobody could see

This is my empty body this is my empty head

I feel still alive but emptiness is what I get (is what I get)

My body feels shattered My heart is pain

I feel headless And I feel insane

This is my emptiness and this is a start

For a new experience of a hurting heart

This is my empty body this is my empty head

I feel still alive but emptiness is what I get

This is my empty case an empty body without a heart

this is my cold and dead face

and my body feels apart...my body feels apart
