

Trust Me

Girls Under Glass

Why are you hiding - behind your smile
Why are you telling me - everything's okay?
Why do I have to find - find out by myself
that something's goin on - something's going badly wrong
Trust Me - Don't Go Away - Iam here for you
I'am your friend - I'am there for you
Trust Me - give me your hand - my love Is true
I won't go away - without You

I felt really sad - The day you walked away
You never gave yourself a chance to find a way
A way for you and me, just another chance
there Is nothing I can do about - to get you back again
