

When I Think About You

Girls Under Glass

We stay together
Together in my dream
When we were closer love was to be seen
Yeah I can feel you
Hear your distant voice
From another world love was our choice

When I think about you
When I close my eyes
I can see your smile I feel you nearby
When I think about you...
Then I recognize how much I love you

Miles from nowhere
Nowhere where you are
This lonely highway my thoughts escape so far
Another world another life is in my head
Through all that distance it's true what I said
