One child, he follow the sound, to a far away place, lonely old town, chasing your dream

Guitar on your back, fire in your heart, you live like a rebel, you know what you want

Blood hot and ready, you're breaking away, you rock steady, you 'll make it some day

You're on the radio, ah, oh yeah You're on the radio, well on and on you go

Taking your chance, you reach for a star, there's no looking back, you know who you are,

you know who you are.

Gunslinger you shoot from the hip, and now it's your time, you never quit

Blood hot and ready, you're breaking away, you rock steady, you 'll make it some day

You're on the radio, ah, oh yeah You're on the radio, well on and on you go You're on the radio.

Wings over waving sun, play me tough, play me loud Believe in your dream, believe in your dreams

Solo

Taking your chance, you reach for a star, there's no looking back, you know who you are

Blood hot and ready, you're breaking away, you rock steady, you 'll make it some day

On the radio, let it rock, You're on the radio, on and on and o h,

You're on the radio, let it rock, let it roll, On the radio, ye ah

You're on the radio, ah, oh On the radio, let it rock, let it roll

On the radio You're on the radio, yeah You're on the radio On the radio, oh ah yeah You're on the radio, let it rock, let it roll

On the radio You're on the radio
