

# Money

Gladys Knight

Money money money...

Well it don't bother, it don't bother me

Money is the root of all evil  
Evil is the root of most people  
I don't know  
Get good, get good

Money is the key to Hollywood  
Expensive cars and fancy homes  
Out here on the Strip, everybody's hip  
Nearly everybody stays strong

Everybody knew everything  
Just as long as you got some bread  
The ladies and the gents perk their compliments  
And they work right on ahead

Money is the root of all evil  
Evil is the root of most people  
I don't know  
Get good, get good

Money is the key to politics  
And the ganster with the gun in his hand  
People turning tricks just to get some kicks  
And it's written all over the land

We all need a little money  
It's so, so sad, but true  
Prices are so high, costs too much to die  
It's the last thing that we do

Money is the root of all evil  
Evil is the root of most people  
I don't know  
Get good, get good

Money money money...  
Sure don't bother me

Money is the root of all evil  
Evil is the root of most people  
I don't know  
Get good, get good

Money money money...  
You said it  
Sure don't bother me

Money is the root of all evil  
Evil is the root of most people  
I don't know  
Get good, get good...
