

Open Up Your Eyes

Gladys Knight

So many times we walk through life
Never caring 'bout the other guy
Still we hope things will change
But if you look inside their eyes
You'll find the kids have grown as cold as ice
Now we must make a change
Oh, Lord, help me to see
What in the world can change
What's happening to you and me
If we open our eyes
Maybe we can find a change in tomorrow
Maybe it's already written in the sky
If we open our eyes
Maybe we can finally change the world's sorrows
Maybe it's already been here all the time
Open up your eyes
So much to do and there's no time
So much to say and nothing's on their minds
We need to make a change
We need to open up our hearts
And help a brother make a new start
We really need to make a change
Oh, Lord, help us to see
I know that You can give the world
Peace and harmony
