

Part Time Love

Gladys Knight

I need somebody who's consistent with me
Someone already there when I need company
'Cause when I'm feeling low
I don't wanna have to go out looking for a part time love

And when the dreams and rainbows start to disappear
I don't want somebody up and running out of here
'Cause when you stop and start (When you stop and start)
Baby, it's just too hard upon my heart (It's just too hard)
That part time kind of love

(I can't take you, baby) I can't take you, darling, living here
Wait and see

(I want somebody who's committed to me)
I want somebody who's committed now to me

Mmmm, hmmm

(Somewhere) Somewhere, (Someday) someday, you got to take a chance

(If you like the music, baby) If you like the music, baby
Get up and dance

If we go together daring to dream
I know we're gonna find our share of peaches and cream
And when the juice is low (When the juice is low)
I don't want no, no, no excuses (No excuses)
Just want your full time love for me
(No part time love for me) Just want your full time love for me
