## Glamour of the Kill

I've got a shotgun loaded in the back of my car  
Don't know how I ended up there but I'll show you the scars  
Looks like fate brought us together just to have a good time  
We've ended up like master criminals, like Bonnie and Clyde

Nothing to lose, just the will to survive  
They'll never take us alive

I came in like an earthquake, gonna make the ground shake  
Can you feel your heart race?  
It's the thrill of the chase  
Like a hurricane coming in to devastate  
Can you feel your heart race?  
It's the thrill of the chase

We don't care about the money, we just do it for the fame  
There's a price of my hand but I keep playing the game  
Our reputation's spreading fast just like a fuckin' disease  
Every city that we've ruined, we left down on it's knees

Nothing to lose, just the will to survive  
They'll never take us alive

I came in like an earthquake, gonna make the ground shake  
Can you feel your heart race?  
It's the thrill of the chase  
Like a hurricane coming in to devastate  
Can you feel your heart race?  
It's the thrill of the chase

Nothing to lose, just the will to survive  
They'll never take us alive  
Go!

What do you know about infamy?  
I got a vicious node to wire, there  
The legend will live on, long after this song  
'Til I'm dead and gone

They'll never take us alive (That's right)

I came in like an earthquake, gonna make the ground shake  
Can you feel your heart race?  
It's the thrill of the chase  
Like a hurricane coming in to devastate  
Can you feel your heart race?  
It's the thrill of the chase

Like an earthquake, gonna make the ground shake  
Gonna make your heart race  
It's the thrill of the chase  
Like a hurricane coming in to devastate  
Can you feel your heart race?  
It's the thrill of the chase
