

# Didn't Think You Cared

Glen Phillips

I came here unexpected  
I came here as a friend  
And this time they've been investing  
Had no place to spend

And my [polls] hanging open  
Look like Heaven said  
Didn't know how to take it  
You just up and left

I didn't think you cared  
I didn't think you cared  
I did not think you cared

You talk just like a doctor  
You spare me all the grief  
But if you saw somebody dying  
You'd take off like a thief

There's so little [hearing silence]  
There's so little we can touch  
Maybe that's why I'm surprised

I can hurt you so much  
I didn't think you cared  
I did not think  
I did not think you cared

Amen, hello  
Forget me now, forgotten  
And I [shared about a soul]
