

Brothers in Arms

Gloryful

Roaming through chaos
Lost in misery
Tripping through darkness
That's my odyssey

Searching for light
Revealing my way
Back to the track
Day by day

I know I'm not alone
I know you'll all be there
A bond that can't be broken
Brothers everywhere

Forces united
Allied in loss
Together we fight it
We're brothers in arms

Brothers - this one is for you
Standing as one
Part of the crew

I got your back
And you got mine
We're brothers of metal
In glory we'll shine
