

El Mare, E Libertad

Gloryful

When darkness falls
The thunder rolls
A goddess devastates
Spreads terror through the land
World painted black
Flash from the sky
Absorbed into nothingness
The World's downfall is sealed

An ancient hate, kept for so long
Beloved the betrayal, the rage growing strong
A heart so cold, her soul's on ice
The black legacy, from the ground she will rise

Let them bleed
Collecting screams
She won't hesitate
No guilt will ever redeem
Queen of the dark
Ruling the sea
Counting the days
Pray faithfully
Absorbed into nothingness
The World's downfall is near
